

# ASSIGNMENT – 2

## HR DATA ANALYSIS

### 1.Uploading the dataset

## 2.choosing the data

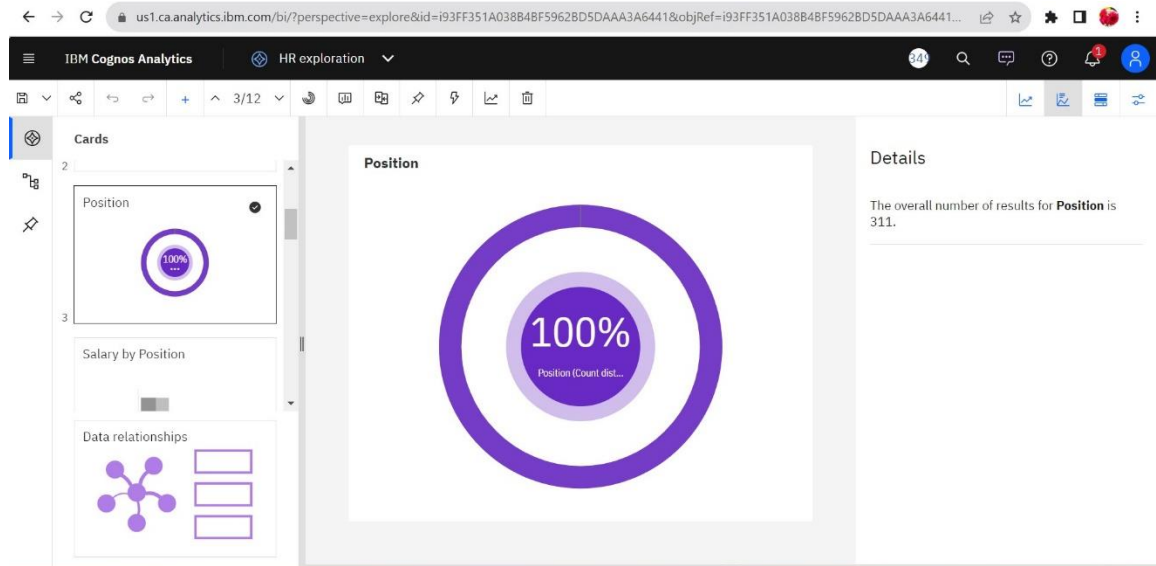

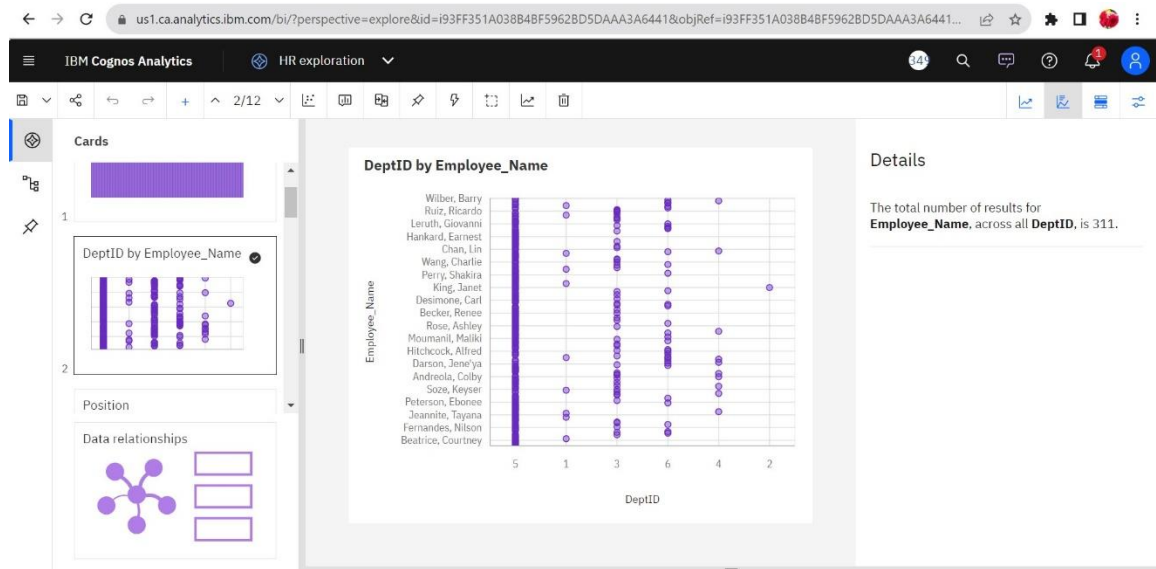

The screenshot shows the IBM Cognos Analytics interface. In the left pane, under 'Data module', the 'HR data Module' is selected. Below it, 'Navigation paths' are listed, including 'HRDataset\_v... - View (1)' and 'HRDataset\_v14.csv'. The main area shows a 'Preview data' message with a grid icon and the text: 'To preview data, select a table, a column in a table, or a folder that contains columns.'

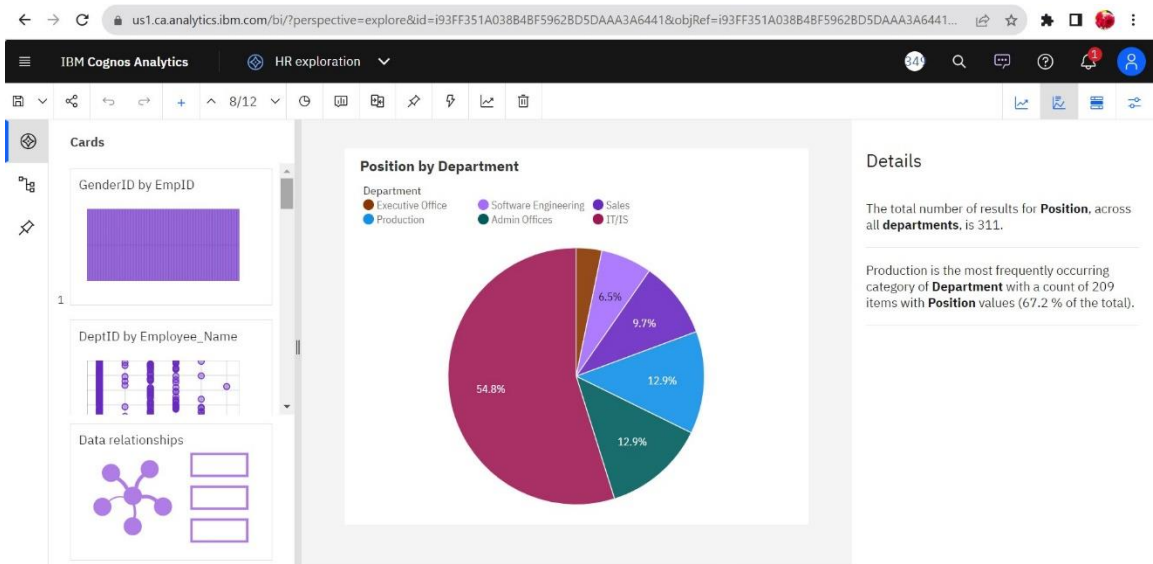

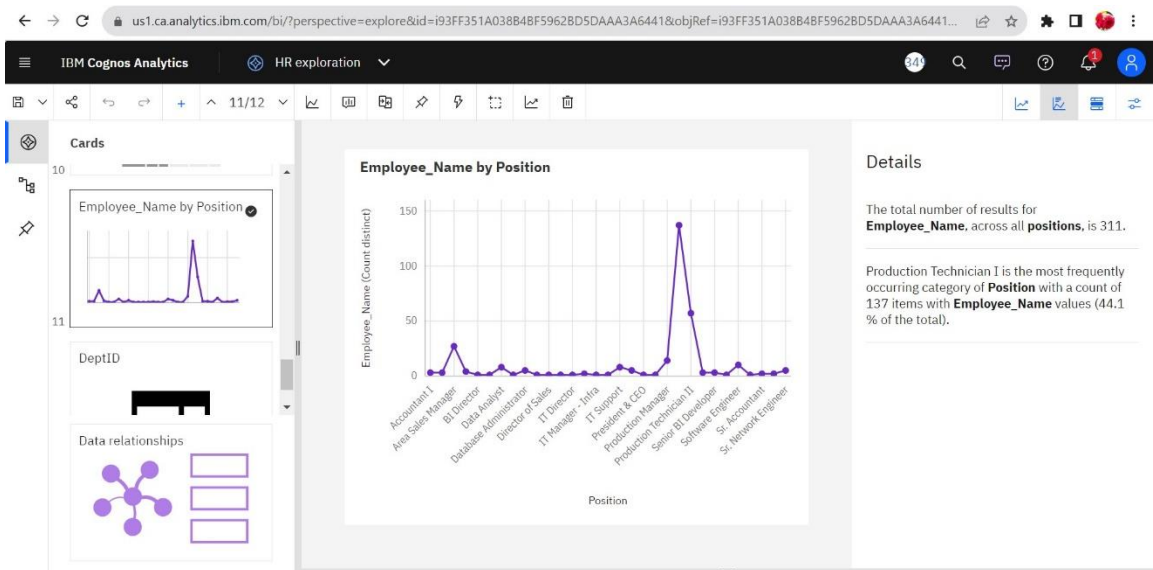

## 3.preparing the data

The screenshot shows the IBM Cognos Analytics interface with the 'HRDataset... View (1)' selected in the left pane. The main area displays a table of employee data.

Row Id	Employee_Name	EmpID	MarriedID	GenderID	Emp
1	Adinolfi, Wilson K	10026	0	1	1
2	Ait Sidi, Karthikeyan	10084	1	1	5
3	Akinkuolie, Sarah	10196	1	0	5
4	Alagbe,Trina	10088	1	0	1
5	Anderson, Carol	10069	0	0	5
6	Anderson, Linda	10002	0	0	1
7	Andreola, Colby	10194	0	0	1
8	Athwal, Sam	10062	0	1	1
9	Bachiochi, Linda	10114	0	0	3

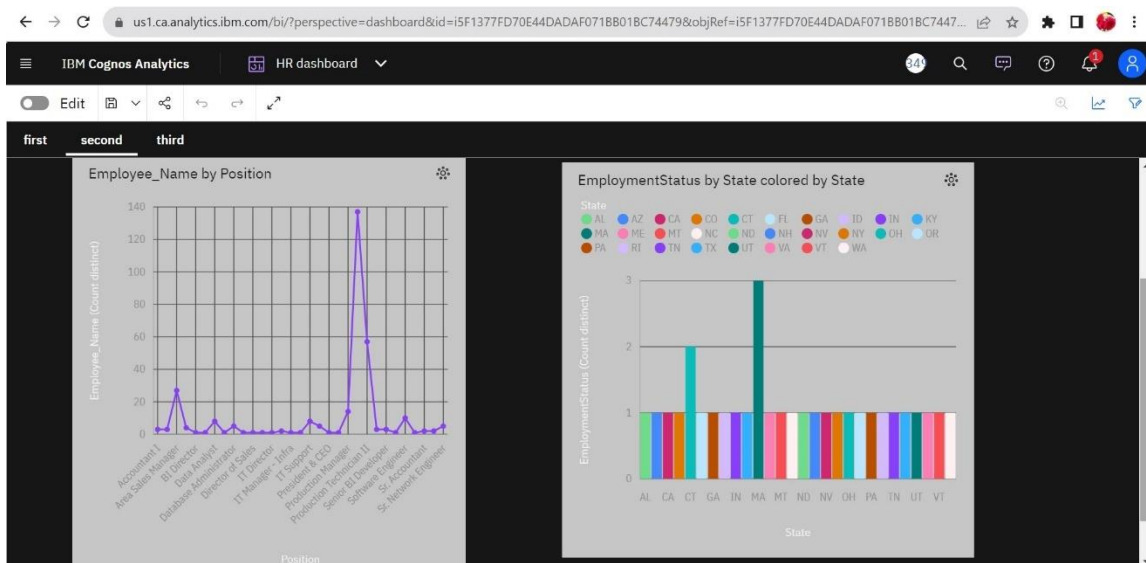

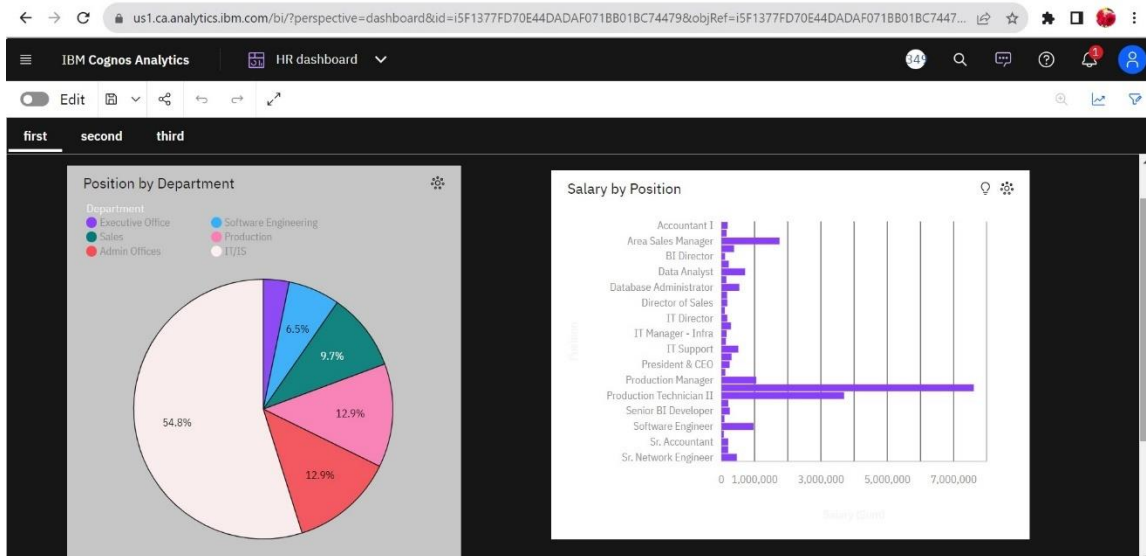

## 4.Exploration of data

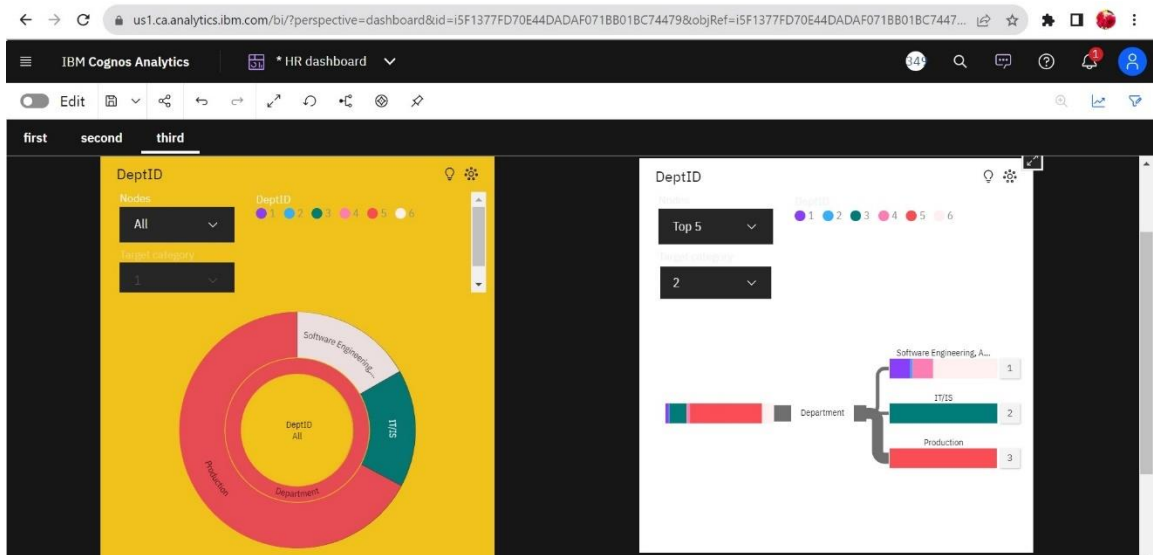

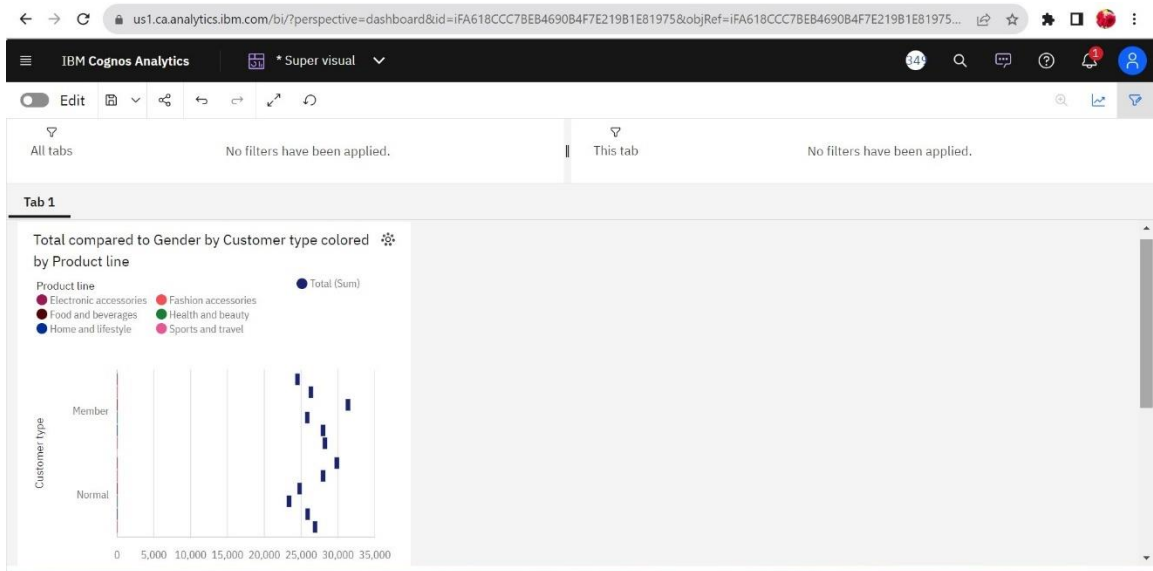

## 5.Data visualization

### a) Dashboard

## b) Report

## C) Story
